Lecture Presentation

PLANT TOURS/SIGHT SEEING

Saturday, September 26, 2015

- Depart from your international airport of choice for Milan, Italy (MXP)

Sunday, September 27, 2015 - Arrival

- Arrival to Milan Airport (MXP)
- Night at the Lake "Lago Maggiore"

Monday, September 28, 2015 - Day in FICEP

- 9:00 AM Visit Ficep and different satellite manufacturing plants
Presentation of our machines and Intelligent Steel Fabrication
Lunch in showroom
Demo - as per your program
- 2:30 PM Demonstration of the complete importation process of the 3D Tekla model, as shown as an assembly below.
The presentation will show how the Steel Projects PLM software breaks down the assembly into components, and they are then produced with "Intelligent Steel Fabrication." This includes all the Steel Projects modules such as nesting, bar code tracking, reporting, etc.

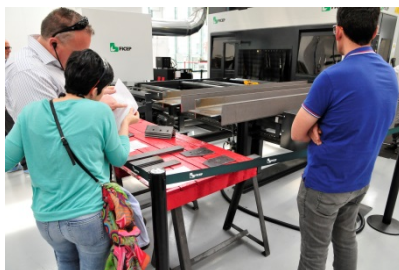

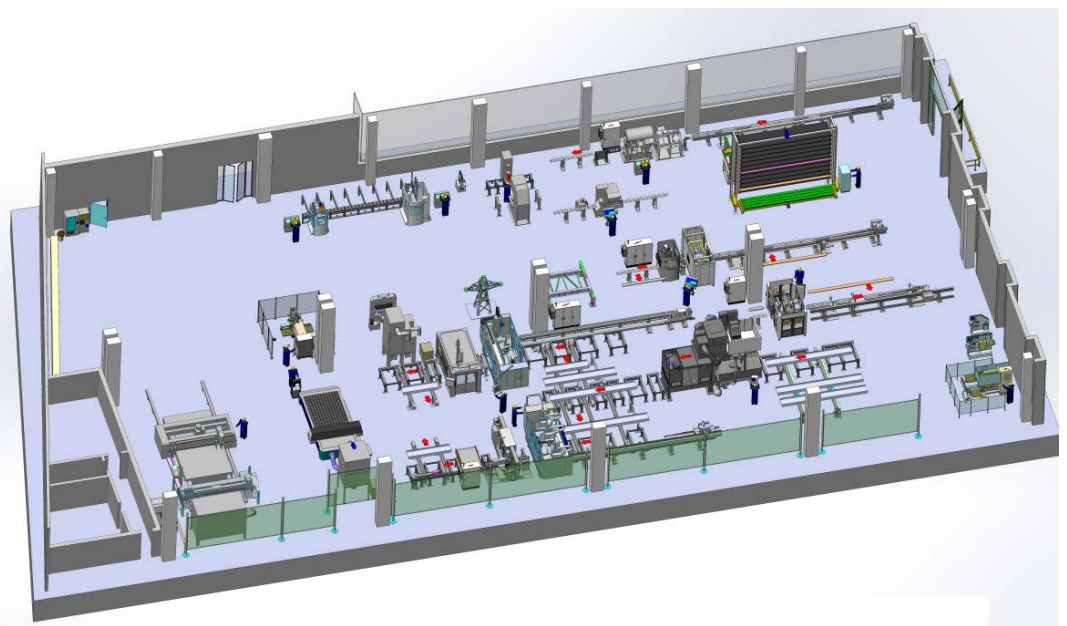

- 3:30 PM Equipment demonstration in our showroom of the complete automatic system and production of the pieces discussed in the conference room through the drill/saw and drill/cope (with automatic handling).
The Gemini and Kronos will be demonstrated for the production of the plate details elements and the Angle Line for the production of the required angle detail in the demonstration assembly.
During the equipment operation, we will be able to explain (with speakers and microphone) the complete automatic process, the bar code management and the reports created by the Steel Projects' software .
